WALES COVID-19 WELLBEING SURVEY 3
PARTICIPANT INFORMATION SHEET
VERSION 2.0 22.09.2021

We at Swansea University in collaboration with the NHS in Wales would like to thank you for considering taking part in this survey.

This survey is trying to help the NHS in Wales understand how the Covid-19 pandemic has affected the mental health and wellbeing of the Welsh population. Taking part in this survey is voluntary and you can withdraw from the survey at any point if you wish to. All identifiable participant data recorded in this survey will be anonymised.

In this survey, we will ask you to provide some information about yourself (e.g. age, gender) and to answer questions about how you have been feeling recently. There will be some questions asking about the current difficulties or worries that you may be experiencing. There will also be some questions asking about your personality, your attitudes towards the Covid-19 pandemic and how you feel about the future. We will ask a few questions about recent suicidal thoughts and behaviours and to finish, we will ask whether there have been any aspects of the pandemic that you have enjoyed.

You do not have to answer any question that you do not want to. There are 'prefer not to say' options for all questions or you can simply decide to skip questions that you do not want to answer. This survey should take roughly 15 minutes to complete. This research has been approved by the Swansea University College of Human and Health Sciences Research Ethics Committee.

If you have further questions about this study, please contact us:

Mood Restoration

In this survey, we have asked you some difficult questions. If you feel your mood has been affected by this survey, please take a deep breath and take a moment to think about some pleasant memories, some happy thoughts or things in the future that you are looking forward to. Please play some peaceful music if you would like. Once you feel your mood has been restored, please continue filling out the remaining questions.

This is the third Wales Covid-19 Wellbeing survey. We would like to know if you took part in either of our previous surveys. These took place between the 9th of June and the 13th July 2020 and the 18th of January and the 7th of March 2021.

- ☐ Yes, I took part in the first and second Wales Covid-19 Wellbeing surveys
- ☐ Yes, I took part only in the first Wales Covid-19 Wellbeing surveys
- ☐ Yes, I took part only in the second Wales Covid-19 Wellbeing surveys
- ☐ No, this is my first time taking part in the Wales Covid-19 Wellbeing surveys
- ☐ I cannot remember if I have taken part in previous surveys
- ☐ Prefer not to say

If you did take part in our previous survey, or if you would like to take part in future surveys, please answer the following questions.

In the last survey, we asked you for some details that would allow us to link your previous survey responses with your future survey responses, whilst keeping your identity anonymous.

To be able to link your answers from this survey to previous or future surveys, we would like you to answer the three questions below.

If you cannot remember your previous answers, or if you would prefer not to answer the questions, you can leave the responses blank.

What was the name of your first pet? (if you have not had a pet, please write "none")

On what day of the month were you born (e.g. 15 if you were born on 15th January)?

What is your star sign?

End of Survey

Participating in future surveys

Thank you for completing this survey, we really appreciate your time and your honesty. Your responses will help the NHS to understand the issues affecting the mental health and wellbeing of the population of Wales and will shape services so that they can meet the needs of the population. The results of the survey will be made available on our website (www.wales-wellbeing.co.uk) when they are ready and will be given to the Health Boards across Wales. We may also publish these results in scientific journals. The results of the survey will only be presented for groups of participants. No individual's data will be reported and anonymity will be protected at all times.

We want to see how your responses change over time, if at all, as we progress through the Covid-19 pandemic and out of lock-down, etc. This research will help the NHS to track the wellbeing needs of the population over the different stages of the COVID-19 pandemic and attempt to respond to these changing needs.

Please keep a look out on our website for adverts for future follow-up

surveys. Remember that you do not have to complete any future surveys if you do not want to.

Debrief Form

Wales Covid-19 Wellbeing Survey 3

Thank you for completing this survey, we really appreciate your time and your honesty. Diolch yn fawr!

The purpose of this study is to look at the impact of COVID-19 on the mental health and emotional wellbeing of the population of Wales.

Your responses will help the NHS understand the issues affecting the population and will shape support services so that they can meet your needs.

This research will also help the NHS to track the wellbeing needs of the population over the different stages of the COVID-19 pandemic.
